

“ One small wheel for Man
one giant leap for
your mobility ”

*The MTC® hybrid module:
a small wheel for
big outings!*

*First and foremost, the MTC®
is light, simple to mount and
quick to attach and detach.
The wheel can be detached
and stowed away easily.*

*Especially with your needs
in mind, we have created a
system that will facilitate your
life, provide you with greater
mobility and maybe even help
you to fulfil your dreams!*

About us

Founded in 2004, Magelan specialises in made-to-measure wheelchairs. Our staff are here to provide for your welfare. We manufacture and sell equipment specially adapted to the needs of people with disabilities and reduced mobility.

In 2002, the MTC® was awarded the special sports award of the French Ministry for Sports, Youth, Popular Education & Community in a national competition to promote the creation of innovative technology firms.

In 2003, at the Concours Lépine, a competition that forms part of the International Exhibition of Inventions in Paris, the MTC® received a World Intellectual Property Organisation (WIPO) gold medal for developing a module for transforming a wheelchair.

The MTC® and Riksja® are manufactured in France a few kilometres from our headquarters in the Deux-Sèvres département.
